DESIGN YOUR DREAMS...

# Lamit

## SIMPLY PHENOMENAL

All architectural pieces are a form of expression, a solid statement. This is why we crafted Lamit roofing tiles with a wide range of profiles, colours and materials to perfectly adapt the aesthetic and utility expressions homeowners as well as architects wish to express.

With a wide spectrum of roof tile profiles derived from eastern and western aesthetic philosophies, Lamit has transformed to become one of the leading brands in this segment.

Lamit is dedicated to **design your dreams** with our large collection of roof tile variants and perfectly coordinated roof system accessories to guarantee timeless durability for your dream project.

## Exceptionally Unique

With our innovative products & our team of well experienced professionals, we aim to make your roofing more elegant, cost-efficient and sustainable. Currently our product spectrum consists of: German series, Italian Series, Japanese series, French Series, Spanish series and East Asian series. All these roofing tiles from Lamit are designed for uniform and harmonious appearance. The German and French series from Lamit are perfect to blend in with the latest trends in roof architecture.

Every design is created to bring in beauty and elegance without compromising on quality. Each tile is manufactured using state-of-the-art technology, taking care to preserve ancient traditions of the craft. This brings out an old world charm that matches popular individual tastes and design styles.

A CLOSER LOOK

Each tile is designed and manufactured with state-of-the-art technology to ensure structural integrity and high precision. The perfect composition of each tile brings unmatched elegance to every roof. Discover new Piano series, made for excellence.

**High definition on each piece**  
Perfectly fine moulds gives precise alignments and quality composition.

**Water tight**  
Well-crafted multiple interlocking system makes Lamit roofing tile perfectly water tight, horizontally and vertically.

**Excellent flatness**  
The gypsum moulds and cassette production process provides perfect shape and fine smooth/texture surface finish.

**Lower absorption**  
High temperature processing provides low water absorption and high frost resistance

**Cost effectiveness**  
Its large format (9.5 units/m<sup>2</sup>) results in reduced cost

PERFECT STRUCTURAL INTEGRITY

- 1. Ridge End
- 2. 3 Way
- 3. Ridge
- 4. Roof Tile
- 5. Gutter

Advanced  
Water Resistance

Lamit roofing tiles stand out for its excellence in Water Resistance capability. This prevents serious damages to the roof itself and to the rest of the building.

# THE DREAM COLLECTION

A wide range collection of colours, textures and styles for you to perfect your dream project, with exquisite attention garnering designs. Lamit roofing tiles are crafted to handle all weather conditions.
